

Olaf Update

Laugh a little, learn a little and take a break from the daily grind

Spring 2007

The front office area features an architectural standing seam roof.

The Design-Build Approach

Bullinger Enterprises and Olaf Anderson & Son Construction worked together to design and build a new 80,700-square-foot facility in less than eight months for Ferguson Enterprises, an international plumbing wholesaler. Olaf Anderson & Son worked closely with Ferguson's local personnel and its corporate office in Virginia to ensure the company's design criteria were fully incorporated. Excellent communication throughout the construction process contributed greatly to the project's success.

The new Fargo facility significantly increased Ferguson's warehouse capacity and also provided space for a new state-of-the-art plumbing, lighting and appliance showroom.

Ferguson's warehouse capacity and also provided space for a new state-of-the-art plumbing, lighting and appliance showroom.

Ferguson Enterprises has been in business since 1953 and has locations in all 50 states, the District of Columbia, Puerto Rico, the Caribbean and Mexico.

Above: Ferguson Enterprises' 55,000-square-foot warehouse stores everything from plumbing washers to Whirlpool tubs.

Above right: This sitting area is part of the 6,500-square-foot showroom.
