

Olaf Gives Back

Pictured below is the new Universal Playground at Lindenwood Park in Fargo, N.D., a project undertaken by the four local Rotary Clubs. Olaf Anderson & Son donated manpower and materials for the playground's concrete work, while many other local businesses in the community also contributed time and materials to create this handicap accessible park for the city.

We're Proud Of The Customers We Keep

Flash back to the Fall 2001 issue of the *Olaf Update*—we did a feature on Goodin Company, the region's premier wholesale distributors to plumbing, heating, cooling and well-drilling contractors. At that time, they had just begun their fourth major project with Olaf Anderson & Son. Now fast forward to 2007, when Goodin Company begins its 12th major project with us!

Olaf Anderson & Son has constructed facilities for Goodin Company in four states in the following locations: Fargo, N.D. (three projects), Sioux Falls, S.D., Eau Clair, Wis., and in Detroit Lakes, Rochester, Duluth, St. Cloud (three projects) and now Brainerd, Minnesota.

Olaf Anderson & Son project manager Gerald Noble has constructed all of the dozen projects. Teamwork, pre-planning and excellent communication among Gerald, the owners and our subcontractor team have built a solid foundation for these buildings.
